Parables -

“The word parable means to ‘cast alongside’. A parable is a story that teaches something new by putting the truth alongside something familiar. A parable starts off as a picture that is familiar to the listeners. But as you carefully consider the picture, it becomes a mirror in which you can see yourself, and many people do not ask for help, then the mirror becomes a window through which we see God and His grace. To understand a parable and benefit from it, demands honesty and humility on our part.”

Parables -

“The primary purpose of the parables is to reveal some aspect of the coming of the kingdom of God in the person and teaching of Jesus. But Jesus also intended that the parables conceal his teaching while being a vehicle for it. Even the disciples of Jesus did not understand the parables without fail. But their adherence to Jesus caused them to seek and receive understanding of the parables. Understanding is made subject to whether a listener is willing to identify with Jesus or wishes to remain ‘outside’ (hold Jesus at arms length). The disciples inquiry arose from commitment and was itself hearing which was in contrast with others failure to hear.”
